What Is An AoI Adventure?

Adventures of Intrigue is based on a magical library where the stories have escaped out of the books so they can't be put back on the shelves. Our 60 minute adventures include puzzles and challenges to solve a mystery or figure out a solution. It is like a game but something much more intriguing and mysterious. We also have shorter adventures for our younger players and large events for our bigger groups.

Who Are We

Our staff is made up of members who are dreamers, designers, makers, thinkers, actors and doers. Many of us have backgrounds in STEAM-oriented skillsets, parenting or performance art.

Descriptions of our Single Group Adventures offered can be found at www.intriguestl.com

We offer single group adventures for groups of 2 to 32.

CAMP INTRIGUE

2 Hours

$20 per Student

20 to 50 Guests

To join the official Junior Librarian program, the administration of the library wants to put each of you to test how you will survive the trials and tribulations of a magical library. Who knows what you may encounter? Lava, traps and challenges that you will have to problem solve as a team to conquer. It involves completing mini-challenges in each story in any order, all in pursuit of achieving the title of Junior Librarian. We will split into teams of 4 to 6. The teams do not have to start at the same time and can work at their own pace. They just check in for a new challenge each time as they finish an old one. Each section features challenges with unique twists, letting the guests develop skills over time.

Review from Erin L. July 2024 - Absolutely best field trip for our summer camp! Organized, prepared and implemented the most creative mystery trip. We had kids ages 6-11 but I will be taking my family there. Great for ALL ages!

JOURNEY TOURNEY

Let's Reach Your SEL Goals Together

1. **"Young people develop a self-awareness that nurtures and affirms a strong sense of identity, informs decisions about their actions, and builds a sense of agency."**

   Our competitive and cooperative games rely on different modes of observation, thinking, deduction, and communication, giving different chances for different students to shine in their own way.

2. **"Young people use social awareness and interpersonal skills to establish, navigate, and maintain mutually supportive relationships with individuals and groups that nurture a strong sense of belonging."**

   Our adventures recognize that individuals have different perceptions based on their background and upbringing, and the challenge is a common ground to use these ways of seeing and solving together in a shared environment with shared goals.

3. **"Young people demonstrate intentional decision-making skills and behaviors that consider social, emotional, and physical safety and well-being in personal, school, and community contexts."**

   Adventures of Intrigue prides itself on being a safe play-space where students can make decisions for themselves and with their peers, while our adults also role-model good sportsmanship. Students will also encounter situations where they may not agree with the strategy of another peer. Our games provide opportunities to value all players' contributions. They will also witness in real time the consequences of decisions they make with or without their peers. Our cooperative games allow for peers to value positive intergroup and interpersonal relationships.
